

CONTENTS

Brăduț Apostol	
Extremal orders of some functions connected to regular integers modulo n	5
Shahabaddin Ebrahimi Atani, Fatemeh Esmaceli Khalil Saraei	
The Total Graph of a Commutative Semiring	21
Benharrat Belaïdi, Habib Habib	
On the Growth of Solutions of Some Second Order Linear Differential Equations With Entire Coefficients	35
Ion Chițescu, Liliana Sirețchi	
Linear operators on Köthe spaces of vector fields	53
Irina Cristea, Sanja Jančić-Rašović	
Composition hyperrings.....	81
Qiao-Li Dong, Songnian He	
A viscosity projection method for class \mathfrak{T} mappings	95
Malik S. Dzhabrailov, Sevinc Z. Khaligova	
Necessary and sufficient conditions for the boundedness of the anisotropic Riesz potential in anisotropic modified Morrey spaces	111
Xiang Gao	
A necessary and sufficient condition for some steady Ricci solitons to have positive asymptotic volume ratio	131
Bipan Hazarika, Ekrem Savaş	
λ -statistical convergence in n -normed spaces	141
K. Karthikeyan, Bashir Ahmad	
Existence results for boundary value problems of arbitrary order integrodifferential equations in Banach spaces	155
Junaid Alam Khan	
On the (De)homogenization of Sagbi Bases.....	173

Sarfraz Nawaz Malik, Mohsan Raza, Muhammad Arif, Saqib Hussain	
Coefficients estimates of some subclasses of analytic functions related with conic domain	181
Nihal Yılmaz Özgür	
On the Images of Ellipses Under Similarities	189
Wen-Wu Pan, Ghasem Alizadeh Afrouzi, Lin Li	
Three solutions to a $p(x)$ -Laplacian problem in weighted-variable-exponent Sobolev space	195
Alina-Mihaela Patriciu, Valeriu Popa	
Altering distances, some generalizations of Meir - Keeler theorems and applications	207
Asghar Rahimi, Abolhassan Fereydooni	
Controlled G -Frames and Their G -Multipliers in Hilbert spaces ...	223
Hüseyin Tuna	
Functional Model of Dissipative Fourth Order Differential Operators	237
Dorel Paraschiv	
A review of leadership	253
